### Markets

- Campgrounds
- Fire Departments
- Homeowners
- Hunting Camps
- Logging Firms
- Municipalities
- Tree Nurseries
- Parks and Rec
- Public Utilities
- Rental Dealers
- Suburban/Rural Property Owners

*Cuts dense undergrowth and saplings up to 1-1/2" in diameter, overgrown grass and weeds over 6-feet tall.*

*Built for heavy-duty requirements, yet designed with operator safety in mind.*

*Features a reverse gear along with three forward speeds for easy use.*

### The Outback® Brush Cutter Provides Unmatched Performance, Easy Operation

Three forward speeds plus reverse and an exclusive manual height adjustment from 2-3/4" to 3-3/4" allow for easy use and professional-grade results. Cupped front skid shoes allow greater maneuverability, reducing operator fatigue. Handle braces, hand guards, front safety deflectors, and an automatic blade brake enhance safe operation. With its patented heavy-duty design—and features like the fully-enclosed drive belt and sealed transaxle—the Outback® Brush Cutter was designed and tested to meet the high demands of its environments while reducing service and downtime.

### Applications

- Clearing brush and overgrown vegetation
- Maintaining trails and rights-of-way
